Academy of Natural Sciences of Philadelphia

John J. and Anna H. Gallagher Fellowship for the Study of the Rarer Microscopic, Multicellular Invertebrate Animals, with Priority for the Study of Rotifera

The sponsor offers an opportunity for original postdoctoral or sabbatical research on the systematics of microscopic invertebrates. The project must be based at the Academy, although field work and visits to other museum collections are encouraged, and the scope should be narrow enough to permit completion during a period of up to twelve months. The research focus must be on systematics and may employ ecological, behavioral, physiological, molecular or developmental tools. The Academy affords many opportunities for collaboration with other systematists, and there are also rotifer ecologists.

Alston/Bannerman Fellowship Program

The Alston/Bannerman Fellowship Program is committed to advancing progressive social change by helping to sustain long-time activists of color. The program, which honors those who have devoted their lives to helping their communities organize for racial, social, economic, and environmental justice, provides resources for organizers to take sabbaticals for reflection and renewal.

American Academy in Berlin

The American Academy in Berlin provides a unique bridge between Germany and America - a bridge created through the scholarship and creativity of distinguished individuals involved in cultural, academic, and public affairs.

Academy Fellows are sought from the fine arts including painting, sculpture, music, film, and drama; scholarly disciplines such as art history, history, philosophy, sociology, political science, and public policy; as well as from professional fields including architecture, law, business, economics and journalism. Fellows are encouraged to take up an association with a Berlin institution such as a museum, library, archive, university, government agency, film studio or media organization.

American Association of University Women

The AAUW Educational Foundation, the largest source of funding exclusively for graduate women in the world, supports aspiring scholars around the globe, teachers and activists in local communities, women at critical stages of their careers, and those pursuing professions where women are underrepresented.
Undergraduate Faculty Sabbatical Grants (PRF)

Grants are intended to help provide year-long, full-time research experiences that will inspire and rejuvenate the awardees and their research programs. It is anticipated that participation in this program will have long-term benefits not only for the participating faculty members but also for their students and home institutions.

American Council of Learned Societies

The ACLS Fellowship Program invites research applications in all disciplines of the humanities and humanities-related social sciences. Appropriate fields of specialization include but are not limited to: anthropology, archaeology, art history, economics, geography, history, languages and literatures, law, linguistics, musicology, philosophy, political science, psychology, religion, and sociology. Proposals in the social science fields listed above are eligible only if they employ predominantly humanistic approaches (e.g., economic history, law and literature, political philosophy). Proposals in interdisciplinary and cross-disciplinary studies are welcome, as are proposals focused on any geographic region or on any cultural or linguistic group. ACLS does not fund creative work (e.g., novels or films), textbooks, straightforward translation, or pedagogical projects.

They offer many, many fellowships, including but not limited to the following:

- ACLS/SSRC/NEH International and Area Studies Fellowships
- ACLS/ New York Public Library Fellowships
- ACLS/Andrew W. Mellon Foundation Fellowships for Junior Faculty
- Early-Career Postdoctoral Fellowships in East European Studies

American Institute of Indian Studies

Senior Scholarly/Professional Development Fellowships. Available to established scholars who have not previously specialized in Indian studies and to established professionals who have not previously worked or studied in India. Senior Scholarly/Professional Development Fellows are formally affiliated with an Indian institution. Awards may be granted for periods of six to nine months.
American Philosophical Society

Sabbatical Fellowship

The American Philosophical Society (APS) announces a fellowship in the humanities and social sciences to supplement an awarded sabbatical or research leave. The fellowship is open to mid-career faculty of universities and four-year colleges in the United States who have been granted a sabbatical or research leave, but for whom financial support from the parent institution is available for only the first part of the year. The society encourages candidates to use the resources of the APS library, but this is not a requirement of the fellowship.

American Political Science Association

The Association brings together political scientists from all fields of inquiry, regions, and occupational endeavors in order to expand awareness and understanding of political life.

American Society for Microbiology

Fellowships

ASM provides funds to students, postdoctoral fellows, and early and mid-career scientists to conduct research and participate in activities that encourage professional growth in a new area. Funds may be available for stipends, housing, travel, and membership in ASM. Check individual program for more information.

AMS Publication on Subventions

The Publications Committee of the American Musicological Society makes available funds to help with expenses involved in the publication of works of musical scholarship, including books, articles, special issues of journals, and works in non-print media. Individual authors or editors, or their sponsoring organization, society, or department, may apply for assistance to defray costs not covered by publishers, such as illustrations, musical examples, facsimiles, accompanying audio or video examples, and permissions. They encourage the submission of proposals from younger scholars and scholars in the early stages of their careers and welcome proposals for projects that make use of newer technologies.
Andrew Mellon Foundation

Makes grants to institutions in higher education, in cultural affairs and the performing arts, in population, in conservation and the environment, and in public affairs.

Archeological Institute of America

Many awards available, including:

Publications Grant
The Archaeological Institute of America established the Publications Grant to offer an annual stipend worth $5,000 to assist scholars in preparing, completing, and publishing results of their field research.

Olivia James Traveling Fellowship
The Institute will award $22,000 as a single fellowship, for work to be conducted between July 1, 2005 and June 30, 2006. The award is to be used for travel and study in Greece, the Aegean Islands, Sicily, Southern Italy, Asia Minor or Mesopotamia.

Helen M. Woodruff Fellowship of the AIA and the American Academy in Rome
A pre- or post-doctoral fellowship for study of archaeology and classical studies has been established by the Institute at the American Academy in Rome. This Fellowship, combined with other funds from the American Academy in Rome, will support a Rome Prize Fellowship that will be open to citizens or permanent residents of the United States.

Anna C. & Oliver C. Colburn Fellowship
One fellowship, with a stipend of $11,000, will be awarded for the academic year 2006-2007 to an applicant contingent upon his or her acceptance as an incoming Associate Member or Student Associate Member of the American School of Classical Studies at Athens.

Harriet and Leon Pomerance Fellowship
One fellowship carrying a stipend of $4,000 will be awarded for the academic year 2005-2006 to enable a person to work on an individual project of a scholarly nature related to Aegean Bronze Age Archaeology.

The Archaeology of Portugal Fellowship
The Archaeological Institute of America announces that funding is available to support projects pertaining to the archaeology of Portugal. These include, but are not limited to, research projects, colloquia, symposia, publication, research-related travel, or travel to academic meetings for the purpose of presenting papers on the archaeology of Portugal.
Argonne National Laboratory

The program is intended to provide mutual benefits to the faculty members and the Laboratory. In addition to bringing about fruitful research activity, it provides Argonne scientists and engineers and visiting faculty opportunities to develop a strengthened rapport and deepened appreciation of mutual needs and interests pertaining to research and development, and to catalyze the formation of continuing research partnerships and collaborations.

Arthur Vining Davis Foundation

Programs include Private Higher Education, Secondary Education, Religion (Graduate Theological Education), Health Care (Caring Attitudes), and Public Television.

Association for Asian Studies

Offer grants for short-term travel to Japan and Korea. The grant is intended for use by scholars already familiar with the country but who need time there in order to complete their work.

Association for Institutional Research

Grants and scholarships supported by the National Center for Education Statistics (NCES) and the National Science Foundation (NSF) are available to staff and faculty of post-secondary education institutions. The goals of the grant and scholarship program are to provide opportunities for professional development, to foster the use of federal databases in postsecondary education decision-making, and to foster the use of the federal databases to inform research on issues in postsecondary education.

Australian National University (ANU); Humanities Research Centre

Visiting Fellowship

The Humanities Research Centre was established by the Australian National University in 1972 to foster innovative research in the humanities and provides funds to support both scholars of demonstrated achievement and promising younger scholars to work in the centre. Each year the centre concentrates on a special theme of enquiry and applications are particularly welcomed from scholars with interest in the theme. Visiting Fellows are expected to participate in the centre's programs, meet regularly with other fellows, make public presentations of their research
Visitors must be in residence for the duration of their appointment.

The centre offers the following:

1. Visiting Fellowships (with grant)
2. Visiting Fellowships (with partial grant)
3. Sabbatical Fellowships (without grant): Staff from other universities and cultural institutions are encouraged to use the facilities of the centre and the ANU and contribute to its intellectual life during their outside studies program. These awards do not provide financial assistance, and are dependent on the availability of office space in the centre.
4. Travel assistance to other Australian institutions must be applied for preferably at the same time as the application and well in advance in accepting the invitation to speak at the other institution. If granted, it's the applicant's responsibility to make certain the Humanities Research Centre is fully acknowledged.

---

**Boston University**

Visiting Research Fellowships

The Institute on Race and Social Division (IRSD), a multidisciplinary research program at Boston University, sponsors teaching, research, and public discussion related to economic, political, and cultural conflicts among groups defined by race, ethnicity, religious affiliation, and linguistic identity. The institute invites applications from all disciplines for postdoctoral research fellowships to be awarded for the academic year 2001 to 2002 to outstanding scholars interested in devoting a year in residence at Boston University to writing on the theme of "race and social division" broadly construed.

---

**Bunting Institute Of Radcliffe College (See Radcliffe Institute Fellows)**

---

**Campus Compact**

Campus Compact is a national coalition of more than 900 college and university presidents committed to the civic purposes of higher education. To support this civic mission, Campus Compact promotes community service that develops students' citizenship skills and values, encourages partnerships between campuses and communities, and assists faculty who seek to integrate public and community engagement into their teaching and research.
Cattell Fund, James McKeen

Supplemental Sabbatical Awards

The James McKeen Cattell Fund Fellowships is offering supplemental sabbatical awards in psychology. These awards are designed to supplement sabbatical allowances provided by colleges and universities, so that each awardee may be able to take enough time to complete the objectives of the sabbatical period. The objective of the awards is to encourage research and scholarly endeavor on the part of the psychologists at colleges and universities.

Center for Advanced Study in the Visual Arts

Visiting Senior Fellowship Program Applications will be considered for study in the history, theory, and criticism of the visual arts (painting, sculpture, architecture, landscape architecture, urbanism, prints and drawings, film, photography, decorative arts, industrial design, etc.) of any geographical area and of any period. Applications are also solicited from scholars in other disciplines whose work examines artifacts or has implications for the analysis and criticism of physical form.

Center for the Education of Women (See University of Michigan)

Chiang Ching-Kuo Foundation for International Scholarly Exchange (CCKF); American Region

Grants for Assistant, Associate, and Full Professors

A one-year grant is available for assistant, associate, and full professors. The grant will provide funds to help replace half of the salary of faculty on sabbatical or for time off for research and writing.

Columbia University; Center for Study of Law and Culture

Fellowships and Visitorships

The Center for the Study of Law and Culture (CSLS) at Columbia University invites applications for residential fellowships and sabbatical visitorships for the academic year to undertake research, writing, and discussion in ways that span traditional academic disciplines. The CSLC welcomes scholars from any field who are interested in spending the academic year in residence at Columbia Law School working on scholarly projects relating to the CSLC's theme: law, culture,
and citizenship. In addition, fellows will be expected to participate in CSLC activities, assist in organizing a spring conference on law, culture, and citizenship, and will present a paper at the center's colloquium series.

**Consortium of Humanities Centers and Institutes**

Established in 1988, the Consortium of Humanities Centers and Institutes serves as a site for the discussion of issues germane to the fostering of crossdisciplinary activity and as a network for the circulation of information and the sharing of resources. It has a membership of over one hundred and thirty centers and institutes that are remarkably diverse in size and scope and are located in the United States, Australia, Canada, Denmark, The Netherlands, Germany, Russia, China, France, the United Kingdom, and other countries.

---

**Cooperative Institute for Research in Environmental Science**

Visiting Faculty and Postdoctoral Fellowships Program

The sponsor offers in-residence fellowships to scientists with research interests in the areas of: advanced observing and modeling systems; climate system variability; geodynamics; planetary metabolism and regional processes.

**ADVANCED OBSERVING AND MODELING SYSTEMS** includes atmospheric chemistry; atmosphere and ocean physical parameters; cryosphere; data centers and data management; ecosystem and environmental modeling; remote sensing of terrestrial properties; non-linear systems; and space weather.

**CLIMATE SYSTEM VARIABILITY** includes detection of climate modes, trends, and variability; mechanisms and forcings of climate variability; stratospheric ozone depletion; prediction of climate variability; and development of extreme events and rapid climate change.

**GEODYNAMICS**--at its most basic level, the goal of geodynamics is to better understand the process of convection within the Earth's mantle, and of how that convection affects the surface of our planet.

**PLANETARY METABOLISM**--includes biogeochemical cycling; biosphere-atmosphere interactions; response of natural systems to perturbations; and transport and fate of chemicals in the biosphere.

**REGIONAL PROCESSES**--includes region-specific impacts of climate variability and extreme events; atmospheric chemical forecasting; regional air quality; intercontinental transport and chemical transformation; surface/atmosphere exchange; hydrological cycles in weather and climate; and high latitude regional processes.
INTEGRATING ACTIVITIES--the production of rigorous, cutting-edge science and technology, the sharing of such knowledge and techniques with students from kindergarten to post-graduate levels, and to developing the significance of scientific and technological discovery for a wide range of decision makers in public, private, and non-governmental settings.

Council for Christian Campuses and Universities Initiative Grants

The purpose of this program is to enable small groups of Christian scholars to network in ways that will lead to individual and collaborative scholarship on focused themes of keen interest to the larger academy. Any discipline is encouraged to submit a proposal which demonstrates potential for Christian perspectives on the theme to make an important contribution to conversations in the academy.

Council for International Exchange of Scholars (CIES); Fulbright Scholar Program; Grants for U.S. Faculty and Professionals; Country Programs; Europe; Finland

For over 50 years, the Fulbright Program has offered U.S. faculty, professionals, teachers, and students the opportunity to conduct research, teach, or study abroad and to make a major contribution to global understanding. The program also brings foreign nationals to the United States to study, teach, and pursue research. The Fulbright Scholar Program, the senior scholar component of the Fulbright Program, offers grants for college and university faculty, as well as for professionals and independent scholars. Approximately one-quarter are for research and three-quarters for lecturing, combined lecturing or research, or seminar participation. Multicountry research is offered in some regions. The Council offers multiple opportunities including, but not limited to, the following:

Award 4272 is for the professional development project they wish to pursue in Finland. The grant is meant for professionals in all fields except medicine.

Cyril O. Houle Scholars in Adult Ed

Funded by the W.K. Kellogg Fdn. -- Program Support is provided to foster emerging scholars who will make a significant contribution to the field of adult education. Awards of $20,000 per year for two years are available. Eligible applicants must be citizens of Southern Africa, Mexico, or the U.S., be in the early years of their professional career in adult education and be currently employed in a research-related position in adult education.
David and Lucile Packard Foundation

The Foundation provides grants to nonprofit organizations in the following broad program areas: conservation; population; science; children, families, and communities; arts; and organizational effectiveness and philanthropy. The Foundation provides national and international grants, and also has a special focus on the Northern California Counties of San Mateo, Santa Clara, Santa Cruz, and Monterey.

Department of Education (US)

Don't forget to check for federal sources for funding. There are many opportunities for a wide variety of purposes.

Environmental Protection Agency

EPA's mission is to protect human health and to safeguard the natural environment - air, water, and land - upon which life depends. For 30 years, EPA has been working for a cleaner, healthier environment for the American people. The agency offers multiple grants, fellowships, and research associateships in those areas.

European University Institute

Jean Monnet Fellowships

Jean Monnet Fellowships are awarded in order to allow the pursuit or continuance of postdoctoral research with no heavy teaching obligations. This research must lead to publication (articles or a monograph), either under the Institute's imprint (for instance in the form of a working paper), or in a journal or with a publisher with which the Fellow is already in contact. Work must fall within one of the following three major categories: (a) comparative research in a European perspective; (b) research on the European Communities or on a topic of interest for the development of Europe; (c) fundamental research, provided that it relates to an innovative subject of importance in one of the disciplines contributing to the development of Europe's cultural and academic heritage.

Fellows carry out their research in one of the Institute's four departments: History and Civilisation, Economics, Law, Political and Social Sciences, or in the Robert Schuman Centre for Advanced Studies which develops interdisciplinary activities bearing on important issues, principally the construction of Europe.
**Fetzer Institute**

The Fetzer Institute is a nonprofit private operating foundation that supports research, education, and service programs exploring the integral relationships among body, mind, and spirit. Our current program focus includes the areas of science, leadership, integral practice, and philanthropy.

---

**Five College Women's Studies Research Center**

The Five College Women's Studies Research Center, founded in 1991, supports scholarly and creative work in women's studies by providing visiting residencies for feminist scholars, teachers, artists, and activists from the United States and abroad; creating a structure for Five College faculty, local community activists, and teachers with research interests in women's studies to discuss, critique, and facilitate one another's work; sponsoring faculty seminars, community workshops, and networking events on topics of importance to women's studies; organizing national and international conferences on scholarship and teaching in women's studies encouraging the use of archival collections on women in the Five College area.

---

**Folger Shakespeare Library**

The Folger Shakespeare Library offers a limited number of residential fellowships for periods of six to nine months. Successful candidates will be advanced scholars who have made substantial contributions in their fields and whose research projects are appropriate to the collections of the Folger Library.

---

**Ford Foundation**

Their mission is to improve the quality of life in the community and to enhance individual opportunity through education. They support educational programs primarily within three main areas: higher education, classroom teaching and learning, and international education.

---

**Fromm Music Foundation**

The Fromm Music Foundation aims to strengthen composition, the vital source of musical culture, and to bring contemporary concert music closer to the public.
Our commitment to music as a living art has taken us in several directions, all focused on bringing about meaningful interaction among composers, performers, and audiences. Specifically, we have sought to influence the contemporary musical scene by:

- Commissioning young and less known composers as well as established composers;
- Sponsoring the annual Fromm Music Foundation at Harvard Concert Series;
- Co-sponsoring, together with new music ensembles, premiere performances of Fromm Foundation commissioned works.

Fulbright (see CEIS)

German Academic Exchange Service (DAAD); Special Programs

Short Term Lectureships

Canadian and U.S. colleges and universities are invited to apply for shared financial support to invite German academics in all fields, notably university faculty, to teach for a period of one to six months at the host institution. This program is designed to help fill a curricular gap or to act as a stimulus for teaching and research in the department concerned.

Getty (J. Paul) Trust

Theme-Year Scholars--Visiting Scholars

The sponsor offers a monthly stipend award to established scholars, artists, or writers who have attained distinction in their fields in the arts, humanities, or social sciences to pursue projects related to the sponsor's annual theme. Scholars are usually in residence three months. Recipients are in residence at the Getty Research Institute, where they pursue their research free from academic obligations, make use of the Getty collections, join colleagues in a weekly meeting devoted to the annual theme, and participate in the intellectual life of the Getty Center. The theme for the 2008-2009 academic year is Networks and Boundries. The sponsor welcomes applications from researchers in the arts, humanities, and social and natural sciences whose projects bear upon the problem of duration in the visual arts. Conservators who have an interest in theoretical aspects of this topic are also invited to apply; projects may entail use of a Getty conservation laboratory.
Guggenheim (John Simon) Memorial Foundation

Fellowships to Assist Research and Artistic Creation

The sponsor provides fellowships to further the development of scholars and artists by assisting them to engage in research in any field of knowledge and creation in any of the arts.

Harvard University Center for Italian Renaissance Studies

The Center offers multiple fellowships, including:

Villa I Tatti in Florence offers up to fifteen fellowships each academic year for advanced research in any aspect of the Italian Renaissance. Each Fellow is offered a place to study, use of the Biblioteca and Fototeca Berenson, lunches on weekdays, and various other privileges, the most important of which is the opportunity to meet scholars from a variety of countries working in related fields.

Thanks to the generous assistance of the Andrew W. Mellon Foundation, the American Council of Learned Societies (ACLS) announces the availability of a small number of new Frederick Burkhardt Residential Fellowships for Recently Tenured Scholars engaged in long-term, unusually ambitious projects in the humanities and related social sciences. Appropriate fields of specialization include but are not limited to: anthropology, archaeology, art history, economics, geography, history, languages and literatures, law, linguistics, musicology, philosophy, political science, psychology, religion, and sociology.

Howard (George & Eliza Gardner) Foundation

Fellowships

Ten one-year fellowships of $20,000 each are available for independent projects in the fields of creative writing in English, including novels, short stories, poetry, playwriting, essays and creative non-fiction. Eligible nominees are mid-career individuals with the rank of assistant or associate professor, who are professionally based in the U.S. either by affiliation with an institution or by residence. The sponsor awards fellowships to support persons engaged in independent projects in the following fields for 2004-2005: creative writing in English, including novels, short stories, poetry, playwriting, essays and creative non-fiction.

Humanities Research Group

Visiting Humanities Fellowships
Support is provided for Visiting Humanities Fellowships, tenable at the University of Windsor in the 2004-2005 academic year. Scholars with research projects in traditional humanities disciplines or in theoretical, historical or philosophical aspects of the sciences, social sciences, arts and professional studies are invited to apply.

International Research and Exchanges Board (IREX)

For over 30 years IREX has supported the highest quality research in the social sciences and humanities. IREX research programs provide individuals and teams of researchers with the support and resources they need to achieve their personal and professional goals. IREX offers multiple fellowships; see their website for details.

Jennings Randolph Program for International Peace

Awards Senior Fellowships and Peace Scholar Dissertation Fellowships to enable outstanding scholars, policymakers, journalists, and other professionals to conduct research on important issues concerning international conflict and peace.

Kosciuszko Foundation

Graduate and Postgraduate Studies and Research in Poland

This program enables American students to pursue a course of graduate or postgraduate study and research in Poland for an academic year or semester. The program also supports university faculty who wish to spend a sabbatical conducting research in Poland.

Kresge Foundation

The Kresge Foundation Science Initiative is a challenge grant program to upgrade and endow scientific instrumentation and laboratories in colleges and universities, teaching hospitals, medical schools, and research institutions.
**Lawrence Livermore National Laboratory**

This prestigious opportunity provides a professor the resources and freedom to conduct cutting edge research in fields of their choice. Candidates are invited to conduct original research on one or more aspects of science relevant to the mission and goals of LLNL, which include: Physics, Computational Mathematics, Computer Science, Chemistry, Materials Science, Engineering, Environmental Science, Atmospheric Science, Geological Sciences, Energy, Laser Science and Biological Science. Successful candidates may participate in experimental or theoretical work at LLNL and will have access to the Laboratory's extensive computing facilities, specialized laboratory facilities and field equipment.

---

**Leo Baeck Institute**

The Leo Baeck Institute is devoted to studying the history of German-speaking Jewry from its origins to its tragic destruction by the Nazis and to preserving its culture. A number of fellowships are offered, including:

The LBI and the DAAD announce the availability of two fellowships per year for doctoral students affiliated with an accredited U.S. institution of higher education or recent Ph.D.'s. They provide financial assistance to students for dissertation research work and to academics for writing a scholarly essay or book. Extensive use of LBI New York resources is to aid research projects falling within the field of study served by the LBI, namely the social, communal and intellectual history of German-speaking Jewry.

---

**Library of Congress**

Library of Congress offers fellowships for Humanistic and Social Science Research through the Kluge Center, which especially encourages humanistic and social science research that makes use of the Library's large and varied collections. Interdisciplinary, cross-cultural, or multilingual research is particularly welcome.

---

**Lilly Library Research Fellowships, Indiana U**

The Lilly Library, the principal rare book and manuscript library of Indiana University, invites applications for visiting fellowships for research in residence in its collections. Its holdings support research in British, French, and American literature and history; the literature of voyages and exploration, specifically the European expansion in the Americas; early printing, and the Church, children's literature, music; film, radio and television; medicine, science, and architecture; and food and drink.
MacArthur Fellows Program

Provides unrestricted fellowships to exceptionally talented and promising individuals who have shown evidence of originality, dedication to creative pursuits, and capacity for self-direction. The MacArthur Fellows Program accepts nominations only from the more than 100 designated nominators across the country in a range of academic and professional fields.

Maclellan Foundation

The purpose of the Maclellan Foundation is to serve strategic international and national organizations committed to furthering the Kingdom of Christ and select local organizations that foster the spiritual welfare of the community.

Merrill Lynch Innovation Grants Competition

Will award a total of $180,000 to eligible PhDs who most effectively present the potential commercial applications of their dissertation topics. The program seeks to stimulate inventiveness by challenging PhDs in the sciences, liberal arts, and engineering disciplines to examine their research in light of real world applications.

National Council for Eurasian and East European

NCEEER was created in 1978 to develop and sustain long-term, high quality programs of postdoctoral research about the social, political, economic and historical development of Russia, Eurasia, and Eastern Europe. Among national research organizations, NCEEER is the largest provider of resources to U.S. scholars for postdoctoral research in these fields. Its support for research on the region has produced direct benefits for U.S. policymakers, the academic community, nonprofit organizations and American business. The projects it has funded have helped people from all of these fields gain a better understanding of current developments and future prospects in the post-communist countries of Europe and Eurasia. NCEEER has also been involved in bringing to the attention of Congress and the executive branch the national interest served by the exchange of ideas among professionals in academia and government.
Visiting Senior Fellowship Program Applications will be considered for study in the history, theory, and criticism of the visual arts (painting, sculpture, architecture, landscape architecture, urbanism, prints and drawings, film, photography, decorative arts, industrial design, etc.) of any geographical area and of any period. Applications are also solicited from scholars in other disciplines whose work examines artifacts or has implications for the analysis and criticism of physical form.

National Endowment for the Humanities

NEH is an independent grant-making agency of the United States government dedicated to supporting research, education, and public programs in the humanities.

National Humanities Center

The National Humanities Center is the country's only independent institute for advanced study in the humanities. A private, nonprofit institution, the Center exists to encourage excellent scholarship and to affirm the importance of the humanities in American society. Leaders from higher education, the corporate world, and public life founded the Center in 1976, convinced that we must study history, language and literature, philosophy, the arts, religion, law, and all other humanities fields if we want to understand the human experience. Most of the Center's fellowships are unrestricted. The following designated awards, however, are available for the academic year 2004-05: three fellowships for scholars in any humanistic field whose research concerns religion or theology; three fellowships for young scholars (up to 10 years beyond receipt of doctorate) in literary studies; a fellowship in art history or visual culture; a fellowship for French history or culture; a fellowship in Asian Studies.

National Institutes of Health

Summer internship program, post baccalaureate research opportunities, graduate education program, clinical and research training programs for medical and dental students.

National Research Council

The National Academies administers Postdoctoral and Senior Research Awards through its Associateship Programs, part of the Policy and Global Affairs Division. The Research Associateship Programs are sponsored by federal laboratories and NASA Research Centers at
over one hundred locations in the United States and overseas.

Awards are made to doctoral level scientists and engineers who can apply their special knowledge and research talents to research areas that are of interest to them and to the host laboratories and centers. Awards are made to Postdoctoral Associates (within 5 years of the doctorate) and Senior Associates (normally 5 years or more beyond the doctorate). Each awardee works in collaboration with a Research Adviser, who is a staff member of the federal laboratory. In addition to traditional Postdoctoral and Senior awards, the Associateship Programs offer Summer Faculty Awards, combined teaching and research awards, opportunities in the NASA Astrobiology Institute, and the international opportunities at the Walter Reed Army Institute of Research and the Naval Medical Research Center overseas laboratories.

National Security Agency

Mathematical Sabbatical Program

The sabbaticals primarily involve cryptanalysis, a discipline highly dependent on superior math ability. Other sabbatical work involves algebra, probability, statistics, number theory, and discrete mathematics.

Newberry Library

The Newberry Library is an independent research library concentrating in the humanities with an active educational and cultural presence in Chicago. Free and open to the public, it houses an extensive non-circulating collection of rare books, maps, and manuscripts. Fellowships at the Newberry Library are of two types: short-term fellowships with terms of one week to two months and long-term fellowships of six to eleven months. Short-term fellowships are generally restricted to individuals from outside the metropolitan Chicago area and are primarily intended to assist researchers with a need to examine specific items in the Library’s collection. Long-term fellowships are generally available without regard to an applicant’s place of residence and are intended to support significant works of scholarship that draw on the Library’s strengths. Fellowships include, but are not limited to, the following:

- Rockefeller Foundation–Long Term Fellowships in the Humanities
- Mellon Postdoctoral Research Fellowships
- National Endowment for the Humanities Fellowships
- Monticello College Foundation Fellowship for Women
- Lloyd Lewis Fellowships in American History
- Audrey Lumsden-Kouvel Fellowship
- Leadership in Professional Development Grants
Methodology, Measurement, and Statistics--Mid-Career Research Fellowships

The sponsor supports research fellowships in the social, behavioral, economic, and statistical sciences to facilitate the development of innovative methods and models for understanding complex social and behavioral science phenomena.

Oak Ridge Institute for Science and Education, Higher Education Research Experiences

Higher Education Research Experiences at Oak Ridge National Laboratory for Faculty

The sponsor provides opportunities to participate in ongoing energy research. Eligible disciplines include physical and natural sciences, engineering, mathematics, and computer science. Research may take place at Oak Ridge National Laboratory in Oak Ridge, Tennessee.

Oak Ridge Institute for Science and Education, Savannah River Site

Savannah River Site Faculty Research Participation Program

The sponsor provides opportunities to participate in ongoing energy research. Appointments are at the Savannah River Site in Aiken, SC. Related disciplines include computer sciences, engineering, mathematics, physical and natural sciences.

Oak Ridge Institute for Science and Education, Air Force Research Laboratory

Faculty Research Participation at the Air Force Research Laboratory

Awards support college or university faculty to take part in activities in the biological sciences, computer sciences, engineering, environmental sciences, physical sciences and related scientific disciplines. Activities are to be carried out at the Air Force Research Laboratory at the Tyndall Air Force Base in Florida.

Oak Ridge Institute for Science and Education, POW/MIA

Faculty Research Participation at the U.S. Army Joint POW/MIA

The sponsor provides the opportunity to college or university faculty to participate in research to locate, exhume and identify the remains of individuals killed in military service. Related fields include anthropology, DNA identification, forensic anthropology, and forensic dentistry.
Oak Ridge Institute for Science and Education, Edgewood Chemical Biological Center

Faculty Research Participation at the U.S. Army Edgewood Chemical Biological Center

Awards provide opportunities to participate in research and development in support of military missions. Appointments are held at the U.S. Army Edgewood Chemical Biological Center, at the Aberdeen Proving Ground, Maryland. Areas of interest include biological sciences, computer sciences, engineering, environmental sciences, physical sciences, and related scientific disciplines.

Oak Ridge Institute for Science and Education, Environmental Management

Faculty Environmental Management Participation at the U.S. Army

The sponsor provides opportunities for college or university faculty members to participate in research in environmental programs involving cultural and natural resources restoration, compliance, conservation, pollution prevention, validation, demonstration, technology transfer, quality assurance and quality control, training, information management and reporting, and related issues. Activities are to be carried out at the U.S. Army Environmental Center at Aberdeen Proving Ground in Maryland. The sponsor provides opportunities for college or university faculty members to participate in research in environmental programs involving cultural and natural resources restoration, compliance, conservation, pollution prevention, validation, demonstration, technology transfer, quality assurance and quality control, training, information management and reporting, and related issues. Activities are to be carried out at the U.S. Army Environmental Center at Aberdeen Proving Ground in Maryland.

Oak Ridge Institute for Science and Education, U.S. Army

Faculty Research Participation at the U.S. Army

The sponsor provides college and university faculty members with an opportunity to participate in research and technology development in engineering, mechanics, chemistry, computational modeling, science, and materials research related to enhancing the lethality and survivability of America's ground forces. The appointment takes place at the Aberdeen Proving Ground in Maryland. Related discipline include the physical, biological and medical sciences, and computer/information science and technology.

Office of Naval Research

Summer Faculty Research Program and Sabbatical Leave Program
The Summer Faculty Research Program is a 10-week program, beginning in May 2004. There are three levels of appointment: Summer Faculty Fellow, Senior Summer Faculty Fellow, and Distinguished Summer Faculty Fellow. Stipends range from $1,400 to $1,900 per week for the summer program. Each Fellow will be reimbursed for expenses incurred on an optional pre-program visit to the sponsoring laboratory and one round-trip encompassing travel to the sponsoring laboratory at the beginning of the program and travel back to their home residence at the end of the program. Relocation assistance is provided to qualifying participants. At the discretion of the Navy lab, Fellows may be allowed to bring a student to the lab to assist with the summer research.

The Sabbatical Leave Program provides fellowship appointments for a minimum of one semester to a maximum of one year in length. Participants in the Sabbatical Leave Program receive a monthly stipend making up the difference between salary and sabbatical leave pay from their home institution. Relocation and travel assistance are provided to qualifying participants.

Both programs are residential and all work must be completed on site at the sponsoring U.S. Navy laboratory.

---

**Pew Charitable Trusts**

The Pew Charitable Trusts support nonprofit activities in the areas of culture, education, the environment, health and human services, public policy and religion. Based in Philadelphia, the Trusts make strategic investments that encourage and support citizen participation in addressing critical issues and effecting social change.

---

**Princeton University; Woodrow Wilson School of Public and International Affairs; Center for the Study of Democratic Politics**

**Predoctoral Visitors**

Princeton University’s Center for the Study of Democratic Politics seeks up to five visitors for the academic year. The center supports empirical research on democratic political processes and institutions, primarily, but not exclusively in the contemporary American setting, with a particular focus on the relationship between democratic theory and democratic practice. Applications are welcome from political scientists and scholars in related social science disciplines at any career stage from graduate students to senior faculty. Each visitor will pursue his or her own research and contribute to the intellectual life of the center, the department of politics, and the Woodrow Wilson School of Public and International Affairs. Among equally qualified applicants, preference will be given to those who can provide partial self-support in the form of sabbatical funding, external grants, or concurrent fellowships.
Radcliffe Institute Fellows

The Mary Ingraham Bunting Institute of Radcliffe College, a multidisciplinary residential research center, offers fellowships for women scholars, scientists, artists, and writers.

Reuters Foundation

Digital Vision Fellowship Program at Stanford University - Developing World Fellowship

The Digital Vision Fellowship Program is a sabbatical program that offers technology professionals the opportunity to use their vision and talent in developing solutions to the challenges facing the developing world, through a six- to nine-month sabbatical at the Center for the Study of Language and Information (CSLI), at Stanford University.

Digital Vision fellows will each undertake a project that explores the utility of information and communications technologies (ICTs) in addressing developing world problems. Projects will have a practical emphasis: fellows produce proof-of-concepts by working closely with non-governmental organizations (NGOs), including Reuters Foundation's AlertNet (an online community of 170 international disaster relief NGOs in 34 countries) and visiting the affected areas. Fellows are awarded a travel grant to make field trips to their chosen region, to develop and test their solution.

The program also holds regular seminars with world-class speakers from the technology, academic, and nonprofit sectors. Fellows may also audit any course at Stanford during the year and sign up for extra classes and seminars.

Robert W. Woodruff Library, Fellowship Program, Special Collections Dept

The Robert W. Woodruff Library of Emory University offers short-term fellowships to support scholarly use of the Library's research collections in the areas of modern literature and African-American studies.

Rockefeller Foundation

The Rockefeller Foundation is a knowledge-based global foundation with a commitment to enrich and sustain the lives and livelihoods of poor and excluded people throughout the world. It offers fellowships and/or programs in the areas of Creativity and Culture, Food Security, Health Equity, Working Communities, Global Inclusions, Assets and Capacities, and Regional Programs.
Ronald McDonald House Children's Charities

Ronald McDonald House Charities provides comfort and care to children and their families by supporting Ronald McDonald Houses in communities around the world and by making grants to other not-for-profit organizations whose programs help children in need.

Rotary Foundation

The Rotary Foundation is a not-for-profit corporation that supports the efforts of Rotary International to achieve world understanding and peace through international humanitarian, educational, and cultural exchange programs.

Royal Society - United Kingdom ; Research Appointments in the United Kingdom

Royal Society USA Research Fellowships

The Royal Society USA Research Fellowships have been established by the Royal Society to increase scientific collaboration between centres of excellence in the United Kingdom and the USA. The fellowships are offered to encourage active and innovative American postdoctoral scientists to undertake the highest quality research in U.K. laboratories for extended periods (between one and three years). Grants may be awarded for research in all branches of the natural sciences. Awards are not available in the areas of the social sciences or clinical medical research.

Sabbatical Homes

A web site that lets scholars who are planning sabbaticals or other trips search for apartments and house-sitting opportunities around the world.

School of American Research

In-residence fellowships support writing projects, or Ph.D. dissertations about topics in the understanding of humankind. Topics may be humanistic or scientific, from the perspective of anthropology or from anthropologically informed perspectives in fields such as history, sociology, art, and philosophy. The award provides a stipend of $30,000 for a nine-month tenure.
Smithsonian Institute

Fellowships at the Smithsonian Institution provide students and scholars with opportunities to pursue independent research projects in association with members of the Smithsonian professional research staff. They offer 50+ fellowships in many areas. See their website for details.

Social Science Research Council

SSRC fellowship and grant programs provide support and professional recognition to innovators within fields, and especially to younger researchers whose work and ideas will have longer-term impact on society and scholarship. These programs often target the spaces between disciplines, where new perspectives emerge and struggle for acceptance, thus ensuring the production of knowledge and expertise on key topics, regions, and social challenges. They promote the diversification of knowledge production, strengthening research by ensuring that it remains open to (and challenged by) a range of perspectives, backgrounds, and nationalities.

Spencer Foundation

The Spencer Foundation was established in 1962 by Lyle M. Spencer. The Foundation received its major endowment upon Spencer's death in 1968 and began formal grant making in 1971. Since that time, the Foundation has made grants totaling approximately $250 million. The Foundation is intended, by Spencer's direction, to investigate ways in which education, broadly conceived, can be improved around the world. From the first, the Foundation has been dedicated to the belief that research is necessary to the improvement of education. The Foundation is thus committed to supporting high-quality investigation of education through its research programs and to strengthening and renewing the educational research community through its fellowship and training programs and related activities.

St Louis University, Center for Medieval and Renaissance Studies

- Vatican Film Library - St. Louis Room's Rare Book Collection
- Six 5-week long Fellowships
  - Stipend - $1610.00 for 5 weeks
  - Studio apartment with full bath and kitchen provided
  - Travel Subsidy: up to $500.00 domestic; up to $800.00 international
### Stanford Humanities Center

One of the oldest campus-based humanities research institutes in the United States, the Stanford Humanities Center forms a crossroads where the intellectual and the social merge to provide a supportive environment. Historians, philosophers, literary critics, anthropologists, and other humanists of diverse ages, academic ranks, and departmental and institutional affiliations contribute to and learn from one another's work while widening the role of the humanities in our society.

Each year the Stanford Humanities Center offers residential fellowships to as many as thirty fellows, who meet regularly in formal and informal sessions while pursuing their individual study, research, and writing. The Center constitutes an intellectual and social community in which historians, philosophers, scholars of literature and the arts, anthropologists, and other humanists of diverse ages, academic ranks, and departmental and institutional affiliations contribute to and learn from one another's work.

### Starr Foundation

The Starr Foundation funds programs in a wide range including culture, public policy, human needs, medicine and healthcare, and education.

### University of Calgary; Calgary Institute for the Humanities

Visiting Research Fellowships

The Calgary Institute for the Humanities supports work in the traditional humanities disciplines such as languages and literatures, philosophy, and history, as well as in the philosophical and historical aspects of the social sciences, arts, sciences, and professional studies. The humanities are thus not conceived as a specific group of academic disciplines, but as forms of study that explore human reality and experience, guided by literature, by history, and by philosophical analysis and reflection.

Visiting Research Fellowships are primarily intended for scholars on sabbatical or release-time leaves to provide the opportunity for a research visit to the institute, at the University of Calgary. Preference will be given to candidates whose work could be well supported at the University of Calgary and is of value to more than one academic area. Any scholarly work in the traditional humanities disciplines or that falls under the broader definition of the humanities will be eligible. It is expected that fellows will offer a public lecture, and possibly one or two seminars within the institute.
University of California, Los Angeles

UCLA offers a wide variety of postdoctoral and visiting faculty opportunities. These include, but are not limited to, the following:

- Postdoctoral/Visiting Scholar Fellowship in Ethnic Studies--African American Studies
- Postdoctoral/Visiting Scholar Fellowship in Ethnic Studies--Chicano Studies
- Postdoctoral/Visiting Scholar Fellowship in Ethnic Studies--Asian American Studies
- Postdoctoral/Visiting Scholar Fellowship in Ethnic Studies--American Indian Studies

University of Cambridge; Corpus Christi College

Visiting Fellowships

Corpus Christi College has an annual programme under which scholars from either Great Britain or overseas may spend the year (at least one term) in Cambridge as visiting fellows. The Visiting Fellowships provide scholars with the opportunity of carrying out their research in the environment of a college with a tradition for scholarship and research. Visiting fellows become members of the University of Cambridge during their stay and enjoy many of the benefits of working in an international centre for research and cultural activities. The fellowships are ideally suited to faculty members on sabbatical leave from their permanent positions.

Visiting Fellows also have the opportunity of interacting with postgraduate students in their own discipline and over a wide range of subjects researched by postgraduates resident at Leckhampton. Two college societies hold meetings at Leckhampton: the Stephen Hales Society, at which lectures are given by scholars connected with Corpus, and the Leckhampton Society, at which students speak informally about their own work. Visiting Fellows are encouraged to participate in these meetings, and spouses or partners are also made welcome.

University of London; School of Advanced Study; Institute of United States Studies

John Adams Fellowships

The Institute of United States Studies was founded to promote and coordinate American studies in the University of London and to assist liaison between teachers of subjects relating to the United States in other institutions of higher education. The primary scholarly role of the institute is to provide a forum for distinguished visiting scholars and public figures from around the world. John Adams Fellowships will be given in support of any scholarly work in the traditional humanities or social science disciplines with a focus on American studies. The fellowships are
tenable at the University of London. It is expected that fellows will offer a public lecture and present one or two seminars within the institute.

---

**University of Melbourne**

Univ. of Melbourne Visiting Research Scholars Grants

The University of Melbourne offers the Visiting Research Scholars Awards to assist researchers at leading universities and research institutions in Australia and overseas to visit the University of Melbourne for periods of three to twelve months for collaborative research. The objectives of the program are: to facilitate the development and strengthening of links between researchers at the University of Melbourne and researchers in leading Australian and overseas universities, other research institutions and industry; to promote research activities within the framework of exchange agreements with overseas universities and research institutions; and to increase the competitiveness of University of Melbourne researchers when bidding for external collaborative research funding.

---

**University of Michigan**

Center for the Education of Women--Visiting Scholar Program

The sponsor provides support to scholars whose interests lie in the following areas: women in higher education; women's work; women of color in the academy; gender and education; career development; women in non-traditional fields; leadership; gender equity in education and employment; and gender and poverty.

---

**University of North Carolina at Chapel Hill ; Cecil G. Sheps Center for Health Services Research**

Postdoctoral Fellowships in Mental Health and Substance Abuse Systems and Services Research

Applications are invited for one- and two-year Postdoctoral Fellowships in Mental Health and Substance Abuse Systems and Services Research. The program provides an opportunity for social scientists and clinicians to gain experience in applying research methods to the systematic analysis and evaluation of mental health services and public policy issues. The emphases of the training program are the organization, integration, financing, utilization, quality, and evaluation of mental health care services; public policies for ensuring access to such services; the social epidemiology of mental disorders; and violence, severe mental disorders, and the law.
Obert C. and Grace A. Tanner Visiting Fellowship

Tanner Humanities Center's mission is to promote humanistic research and education at the University of Utah, in the state, and in the nation. Faculty affiliated with colleges and universities, as well as independent scholars, interested in humanistic issues are eligible to apply. Projects in any of the following fields are eligible for support: anthropology and archaeology, communication, history, philosophy, religious studies, ethnic and cultural studies, jurisprudence, history/theory/criticism of the arts, languages and linguistics, literature, gender studies, historical or philosophical issues in the social and natural sciences, or the professions. The center encourages projects that are interdisciplinary and that are likely to contribute to substantive intellectual exchange among a diverse group of scholars.

Visiting fellows may hold other support (sabbatical or other funding) during their fellowship but should note in their proposal if that is the case. Fellows are required to remain in residence for the nine-month academic fellowship year (August through April), to participate in center activities, and to contribute to the intellectual life of the university community. The nature of this contribution will depend on fellows' own interests and will be determined in consultation with the center director prior to the fellows' arrival in August.

Fellows may direct a faculty research reading group or seminar or teach one course; each fellow will present an academic talk on his or her work in progress. The center's fellows will meet regularly with center's director in informal weekly or bi-weekly sessions. Finally, by June 30, 2005 fellows will submit a written report summarizing their progress, findings, and fellowship experience.

US Institute of Peace

Awards Senior Fellowships and Peace Scholar Dissertation Fellowships to enable outstanding scholars, policymakers, journalists, and other professionals to conduct research on important issues concerning international conflict and peace.
**W.K. Kellogg Foundation**

A non-profit that focuses on improving communities' quality of life in the United States, Latin America and the Caribbean, and Southern Africa through the practical application of knowledge and resources. Funding is focused toward food systems and rural development; youth and education and higher education; and philanthropy and volunteerism. Within these focal areas, funding is also provided for leadership; information systems/technology; efforts to capitalize on diversity; and family, neighborhood, and community development programming.

---

**Western Michigan University: Medieval Institute**

Visiting Fellows

The Medieval Institute invites applications for its Visiting Fellows Program, open for the Winter 2004 term and the Spring 2004 session (January through May or June). The award will supplement a sabbatical leave or an external grant so that the fellow can maintain residence at Western Michigan University and pursue the proposed research agenda. The successful applicant will, in connection with the research plan, work with the Medieval Institute to create a series of coherent sessions at the 2004 international congress. Publication of the resultant symposium through Medieval Institute Publications is an expectation. The Visiting Fellow will not teach during the period of the award and will offer one public lecture on his or her research in the winter term.

---

**William Randolph Hearst Foundation**

The William Randolph Hearst Foundation assists institutions in providing opportunities to underserved and underrepresented populations within its charitable goals of Education, Health, Social Service and Culture.

---

**Wm T Grant Foundation**

The goal of the William T. Grant Foundation is to create a society that values young people and enables them to reach their full potential. The Foundation supports basic and applied research on youth development, program evaluations, policy analyses, research syntheses, and communications research. Priority areas for research are youth development; programs, policies, and institutions affecting young people; and adults' attitudes about and perceptions of young people, focusing on young people age 8 - 25.
Woodrow Wilson National Fellowship Foundation (see also Princeton University)

Woods Hole Oceanographic Institution

Marine Policy Fellowship Program

Current areas of research concentration include measurement and conservation of biological diversity; valuation of improved weather and climate forecasting; fish ecology and fish stock dynamics; fisheries management and bycatch policy; aquaculture development and policy; marine transportation technology, safety, and liability; ocean exploration technology and historic shipwrecks management; sources of productivity change in the marine sector; and local, national, and international efforts to control land-based marine pollution.

The fields of economics, law, statistics, public policy, natural resources management, and international relations are preferred, but strong applications from other relevant fields are welcome.
