NEW! Rolling – [Robert Wood Johnson Foundation](#)

The Robert Wood Johnson Foundation is accepting Letters of Intent for its *Evidence for Action: Investigator-Initiated Research to Build a Culture of Health*. The program aims to provide individuals, organizations, communities, policy makers, and researchers with the empirical evidence needed to address the key determinants of health encompassed in the Culture of Health Action Framework. Evidence for Action encourages creative, rigorous research on the impact of innovative programs, policies and partnerships on health and well-being, and on novel approaches to measuring health determinants and outcomes.

As of July 2016, the foundation had awarded ten grants ranging from \$46,000 to \$500,000, for a total of just over \$2.4 million in grant awards. Generally, applicants can expect to be notified within 6-8 of submitting their Letters of Intent. Applicants invited to the full proposal stage will have 2 months to submit their proposal once they receive notification. Full proposal funding decisions generally will be made within 6-8 weeks of the submission deadline.

May 1 – [California Historical Society Book Award](#)

The California Historical Society (CHS) and Heyday have established the California Historical Society Book Award for a book-length manuscript that makes an important contribution to both scholarship and the greater community by deepening public understanding of some aspect of California history. The prize carries a *\$5,000 advance* and publication in both print and e-book formats by CHS/Heyday, with an awards ceremony, ample promotion, and an author tour throughout the state. The topic should be broad enough to be of interest to readers throughout the state. Authors with either manuscripts in progress or finished manuscripts are welcome to apply. Manuscripts, when finished, should be at least 40,000 words. Preference will be given to manuscripts of fewer than 75,000 words.

NEW! May 31 – [Russell Sage Foundation](#)

The foundation's program on the Future of Work supports research on the causes and consequences of changes in the quality of jobs for less- and moderately-skilled workers in the United States. The foundation seeks research proposals related to the role of changes in employer practices; the nature of the labor market; and the impact of public policies on the employment, earnings, and the quality of jobs for American workers.

The foundation encourages methodological variety, but all proposals should have a well-developed conceptual framework and research design. Analytical models should be specified and research questions and hypotheses should be clearly stated. Awards are available for research assistance, data acquisition, data analysis, and investigator time for conducting research and writing up results. *Grants of up to \$150,000* will be awarded to qualified organizations. Letters of Inquiry must be received no later than May 31, 2017. Upon review, selected applicants will be invited to submit a full proposal by August 15, 2017.
