

Installing Trend Micro

WINDOWS

Before you start, check to see if there is already an antivirus installed on the computer. If there is ask the student if they would like to keep their existing antivirus protection or if they would like us to uninstall what they have and install Trend Micro.

1

Download the installer from http://downloadcenter.trendmicro.com/index.php?regs=NABU&clk=latest&clkval=5312&lang_loc=1

2

Downloads > Double-click to open the Trend Micro Antivirus Installer

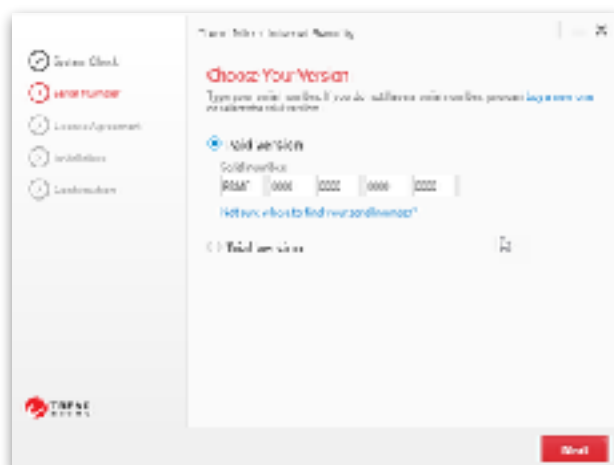

3

Click Yes to allow the application to make changes to the device

4

The application will prepare for installation. When prompted enter the serial key (follow the steps on the next page to retrieve serial key) and click Next

5

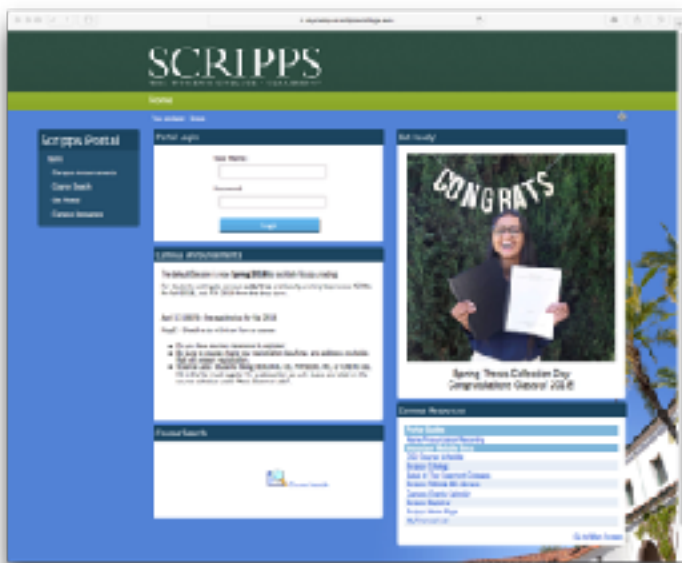

Accept the End User License Agreement and Install Trend Micro. Once installation is complete Trend will automatically scan your device.

Retrieving your Trend Micro Antivirus SERIAL KEY

1

Go to <https://mycampus.scrippscollege.edu/> and login with your Scripps Network credentials

2

Once logged in Go to the STUDENT page and you will get the option to Select Resource Distribution at the bottom left corner

3

From the drop down menu Select Trend Micro and click Submit

4

Copy the Serial Key for Trend Micro
