

# Connecting to Claremont-WPA

While on the Claremont Colleges campuses you may connect to the wireless network with your Scripps College network username and password. New students connect to Claremont-WPA only after changing their network password.

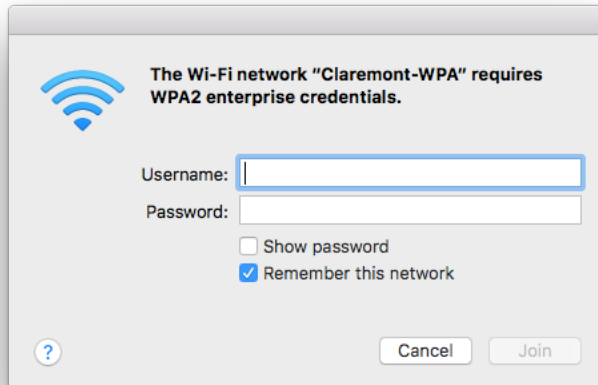

macOS:

1

Go to WiFi  in the Menu Bar, click to select and connect to Claremont-WPA

2

In the WiFi Dialogue Box type your network username@scrippscollege.edu and your network password.

3

On the next pop-up, accept the certificate. You will then be promoted to enter your admin password.
